Twice

as many Middle Schoolers report being **BULLIED** than High Schoolers

About **11%** of Middle Schoolers admitted to cyberbullying someone else

Source: 2019 Hawaii YRBS

Hawaii's Youth Risk Behavior Survey data for 2021 showed a decline in the incidence of bullying reported for the past 12 months. This was probably due the fact that fewer students were on campus due to the pandemic. **The exception was Middle School students who were cyberbullied. That percentage increased to 28% for all students and 43% for Middle School students who reported as gay, lesbian, bisexual or other.**
